

# Non-Viable Bulk Fungal Analysis With PCR Panel Recommendations

Sample Company Client ID: 0000
Sample Contact Person Report Number: F000000

SGSFL Job ID: 0000-00
000 Sample Street, Suite 000
Date Received: 00/00/00
Sample City, CA 00000-0000
Date Analyzed: 00/00/00

Date Printed: 00/00/00

First Reported: 00/00/00

Sample Type: Tape Lift First Reported: 00/0
Analysis: Direct Microscopy - Qualitative (visual area estimation) for PCR Probe Recommendations; FASI Method IAQ 102

Job ID / Site: Sample Site

Lab Number	0000000	0000000	
Sample ID	1	2	
Location	Location A	Location B	
Sample Date	00/00/00	00/00/00	
Organism	Relative Density	Relative Density	Relative Density
Ascospores	Minor	Major	
Aureobasidium-like	Minor	Major	
Cladosporium	Minor	-	
HYPHAE	Major	Abundant	
Particulate Density Comments &	Abundant	Abundant	
Comments & Recommended PCR Probes*	Aureobasidium pullulans, Cladosporium cladosporioides, Cl. sphaerospermum.	Aureobasidium pullulans.	

## Non-Viable Bulk Fungal Analysis For PCR Panel Selection

Sample Company Client ID: 0000

Sample Contact Person Report Number: F000000

SGSFL Job ID: 0000-00
000 Sample Street, Suite 000
Sample City, CA 00000-0000
Date Analyzed: 00/00/00
Date Printed: 00/00/00

Sample Type: Tape Lift First Reported: 00/00/00

Analysis: Direct Microscopy - Qualitative (visual area estimation) for PCR Probe Recommendations; FASI Method IAQ 102

Job ID / Site: Sample Site

Explanations: Density Estimated As Follows:

Relative Density Relative amount of fungi present Trace 1 (<5% Occluded)
Particulate Density Amount of background particulate present Very little present

Minor 2 (>5% & <25% Occluded)

Present but not in large quantity

Major 3 (>25% & <50% Occluded)
Present in most of sample

Abundant 4 (>50% Occluded)

Covering almost entire sample

Overloaded 5

Covering entire sample

#### \* Notes:

The recommended probes shall not be interpreted as possible identification of fungal species on tape lift samples. The list of recommended probes only represents fungal species that are morphologically similar to those identified on the tape lift sample(s) and for which PCR primers and probes are utilized by Forensic Analytical Specialties, Inc.

### Guidelines For Interpretation of Non-Viable Bulk Results:

No accepted quantitative regulatory standards currently exist by which to assess the health risks related to mold exposure. Molds have been associated with a variety of health effects and sensitivity varies from person to person.

Several organizations, including: the American Conference of Governmental Industrial Hygienists (ACGIH); the American Industrial Hygiene Association (AIHA); the Indoor Air Quality Association (IAQA); the United States Environmental Protection Agency (USEPA); the Centers for Disease Control (CDC), as well as the California Department of Health Services (CADHS), have all published guidelines for assessment and interpretation of mold resulting from water intrusion in buildings.

FALI reports soley the organisms observed on the sample(s). This is not an inclusive list of the fungal types identified in the microbiology laboratory.

#### Microbiology Laboratory Supervisor, Hayward Laboratory

Analytical results and reports are generated by SGS Forensic Laboratories (SGSFL) at the request of and for the exclusive use of the person or entity (client) named on such report. Results, reports or copies of same will not be released by SGSFL to any third party without prior written request from client. This report applies only to the sample(s) tested. Supporting laboratory documentation is available upon request. This report must not be reproduced except in full, unless approved by SGSFL. The client is solely responsible for the use and interpretation of test results and reports requested from SGSFL is not able to assess the degree of hazard resulting from materials analyzed. SGSFL reserves the right to dispose of all samples after a period of thirty (30) days, according to all state and federal guidelines, unless otherwise specified. All samples were received in acceptable condition unless otherwise noted.
